## Dingoo A320 or GPH Wiz?

The Dingoo A320, a small handheld from China. Very easy and well made, but he showed already fast its shortcomings. Slide the buttons when the on press sometimes under the chassis. The white Dingoo does her cheap from processing. The Dingux operating system is not been applied, even on the Dingoo. You yourself must do that. For missing knowledge, this is a major problem. Dingux on the Dingoo is not installed, so you can play except those already on games. This is great prints in the overall classification. Who's on Dingux can fortunate itself. If you do not know how to do this can send back the device, if the vendor agrees. The Dingoo is already well served with 4 GB of internal memory. Port Dingoo A320 for the TV gets big points. You must put the cable in the Dingoo and the TV and then you can play on the TV. This provides even more fun. On [www.gp2x.de](http://www.gp2x.de) the Dingoo with 101,70 euro shipping is available.

### **Data sheet:**

- \* CPU - Ingenic MIPS 400 MHz with 32 MB RAM & 4 GB of internal memory (NAND).

- \* Capture function - of the radio and the microphone can be included.
- \* Homebrew software without hacking possible, free SDK available.
- \* Size: 125 mm x 55.5 mm x 14 mm & weight: approximately 110 g.

### **Pro:**

- Leicht fits into any Pocket
- pricing
- TV connection

### **Con:**

- games without Dingux not possible
  - discount case processing a \_ the GPH Wiz Koreanischer handheld.
- 

Significantly heavier than the Dingoo A320 for he has but also much more about. Approximately 160 grams difficult it. A 2.8 inch display has the Wiz. But what is it particularly? The colors, not the size. It is the touch screen for many more fun provides. Some games are played with the touch screen. The main menu can be used also. It is much easier in some situations. What is the advantage of the Wiz? Install an operating system on. The games simply download, on copy and lot games. Like the Dingoo, the Wiz has also speakers, a built-in microphone, and much more. However, the Wiz has internal memory 1 gigabyte. But for the play and for some music that is enough. GPH Wiz with 131,70 euro shipping is available on [www.gp2x.de](http://www.gp2x.de).
